Tenjin is becoming more fun and exciting.

TENJIN CHIKAGAI

An underground shopping mall stretches for about 590 meters from north to south underground of Tenjin, the largest commercial district in Kyushu. There are 150 shops dealing with clothing items and various others.

## It is a relaxing space with the impressive contrast of light and shadow.

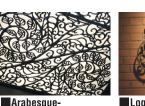

The mall is filled with an atmosphere like a town of 19th century Europe. There are stained glasses and an automaton clock in the area from the 1st to 6th block. The central square in the area from the 7th to 12th is illuminated by soft and natural sunlight.
